 Curriculum for Life

We also encourage you to share these platforms and our posts with your own accounts and networks. As a small charity, this will enable us to reach more learners, parents and collaborators to cocreate and partner with.

Explore and share our updated website

Our updated website is live. Explore our new and improved online space that showcases our mission and brand.

We also highlight the different ways learners, partners, educators and parents can get involved with Cfl.

COCREATION UPDATE

As you know, the youth voice is at the heart of what we do and for the past two years we have been collaborating with young people from around the world such as yourselves to select topics and develop learning resources in intergenerational groups. We are now preparing to build on this work by hosting a range of engaging co-creation exercises and activities to continue ideating, generating and sharing experiential learning.

We are gathering registrations for the next phases of co-creation and are looking to reach out to more young people. Read our [Youth Co-creation doc](#) for more information.

If you or anyone you know would like to take part please [register your interest](#) here.

OPPORTUNITIES

Exciting events you are invited to join:

GEM Report / ARETE | All rights reserved
